3. Public Comments

There were no comments from the public

4. Introductions

Introductions were made as there were several new attendees.

5. Board Meeting Minutes of October 22, 2018.

On a motion by Director Gibson, seconded by Director Baker, the minutes of the January 28, 2019 meeting were unanimously approved by the Board, with Director Graves abstaining.

6. Report from the Chair

a. Consultant Progress Reports

The Board reviewed the consultant progress reports for January, February, and March 2019.

b. Financial Reports

The Board reviewed the Final Financial Reports for Fiscal Year 2018/19 through March 31, 2019. Through the third quarter of the year all expenses are tracking normally.

Chair Rabbitt noted that future Board meetings are scheduled for October 28, 2019, April 27, 2020, and October 26, 2020.

7. Phase 1: Status of Reconciliation and Closeout Activities

Jake Spaulding gave an update on the reconciliation and close out activities for Phase 1. The deadline for completing projects is September 30, 2020.

8. Updated Reporting on Key Issues and Proposed Board Actions

Ginger Bryant provided a summary of the rationale for transitions from consultant team reports to key issue reports, which may involve multiple consultants. The key issues included the following:

Key Issue 1: SB332 Pilar Oñate-Quintana gave a summary of the issues and concerns with SB332, which would require dischargers to the ocean of bays to reduce flows by 50% by January 1, 2030 and by 95% by January 1, 2040. There would also be a civil penalty assesses of \$2,000 per acre-foot for all flows above the reduction requirements. NBWRA is coordinating with CASA and WateReuse. Member agencies provided data used in a comment letter opposing SB332. Leah Walker is representing NBWRA on the WateReuse working group. Pilar also discussed AB1180 and AB292. SB332 also shows the need for additional technical consulting services to assist in developing comment letters as SB332 moves through the legislature. A proposed RFQ for planning and engineering support services will be considered separately under Item No. 10.

Key Issue 2: Completing the Phase 2 Study and NEPA Waiver Status Jim O'Toole summarized the status of this issue. The Feasibility Study was competed in 2017 and the Financial Capability Analysis will be submitted to USBR in My 2019. Title XVI grand funds can be applied for at this stage of the process. However, funds cannot be expended until the Record of Decision (ROD) is issued. Ginger Bryant noted that this action is stuck pending Congressional action. Her

team is working to achieve the necessary changes, which will dictate the funding actions. Mike Savage stated that pending a resolution to these issues that ESA will temporarily stop work.

Key Issue 3: Phase 2 Language Fix Ginger Bryant reported that the final language has been agreed upon. This can be included in an appropriations bill (6-10 months) or an authorizing bill (20-22 months). If included in an appropriations bill funding could be applied for in early 2020; if in an authorizing bill funding could be delayed until 2022.

Key Issue 4: Phase 2 Construction Grants WaterReuse has requested \$100 million. A dear colleague letter requests \$150 million for Title XVI and \$150 million for WaterSMART grants. NBWRA has requested \$60 million. Petaluma and American Canyon are nearing the point of being ready to apply for grant funding, which could be \$6 million in grants and \$18 million in local funding.

Key Issue 5: Other Phase 2 Funding Assistance

Rene Guillen discussed other possible funding sources, including IRWM grants. He also noted that Caltrans TMDL and trash removal grants were not compatible.

9. Fiscal Year 2019/2020 Budget Summary

The Program Manager provided a summary of the FY19/20 Budget. No budget was presented to the Board at the January 2019 meeting since there are adequate funds in existing agreements for all activities except for Program Development and Advocacy. At the January meeting the Board approved a Request for Qualifications process for those services for an 18-month period from July 2019 to December 2020. Proposals have been received and reviewed by the Technical Advisory Committee (TAC). Grant Davis will report on the results under Item No. 11.

10. Authorization for Sonoma Water to issue a Request for Proposals, Evaluate Said Proposals, and Enter into an Agreement for a Cost not to Exceed \$25,000 for Planning and Engineering Support Services for State and Federal Advocacy Planning

Jake Spaulding discussed the proposed process. Drew McIntyre expressed concern that since this is a joint use cost non-phase 2 agencies would be paying part of the cost. He was concerned that it could establish a precedent for future activities. Leah Walker discussed the need for the services, particularly for SB332. Brad Sherwood stated that Sonoma Water usually includes those services in the scope for advocacy services to avoid multiple agreements. Following discussion, Grant Davis recommended that this item be held until after the completion of Item No. 11. Ultimately, the Board took no action on this item.

11. Review Proposals for Program Development and Advocacy Services, Selection of a Consultant, and Consideration of Authorization for Sonoma Water to Negotiate a Scope and Cost within Previously Established Budget Ranges, and Authorization for Sonoma Water to Enter into an 18-Month Agreement with the Selected Firm.

Grant Davis reviewed the RFQ process and the rating results from the TAC. Two firms submitted proposals and Bryant & Associates was ranked first. The scores and comments were similar. A motion by Director Graves, seconded by Director McDonnell to authorize Sonoma Water to negotiate a scope and cost for Program Development and Advocacy Services, including technical assistance as needed, with Bryant & Associates was unanimously approved. Chair

Rabbitt appointed himself, Sonoma Water staff, Leah Walker, and Drew McIntyre to the subcommittee to negotiate the scope and cost.

12. Items for Future Discussion and Comments from Chair, Board, or Member Agencies

Items for the next meeting include: regular business reports, Phase 1 and Phase 2 status and activities, and Tasks and Budget for FY2020/2021.

13. Adjournment

Chair Rabbitt adjourned the meeting at 10:59 a.m. The next meeting will be Monday, October 28, 2019 at 9:30 a.m. at Novato City Hall.

Minutes approved by the Board _____.

**ITEM NO. 8 FINANCIAL REPORTS FOR FISCAL YEARS ENDING JUNE 30, 2019
 AND JUNE 30, 2020**

Action Requested

None at this time.

Fiscal Year Ending June 30, 2018

The following items are attached for the Board's information for Fiscal Year ending June 30, 2019:

- a. Consultant Cost Tracking for FY18/19 through June 30, 2019
- b. FY2018/19 Monthly Project Cost Summary as of June 30, 2019
- c. FY2018/19 Budget Allocations as of June 30, 2019
- d. FY2018/19 Transaction Summaries for Phase 1, Phase 2, Joint Use, and Discretionary as of June 30, 2019
- e. FY2018/19 Interest Earned

Items a.-e. are summaries for FY2018/19. In the Consultant Cost Tracking spreadsheet costs by month are shown by column across the top. Only the most current three months of the fiscal year are shown, but carryover data is included. Total costs are included. Percent remaining is based on the total budget. The rest of the SCWA items are as described above. Through June 30, 2019 all items are tracking normally. Item d., Transaction Summaries includes a new spreadsheet to show discretionary expenses not budgeted. Associate member dues are used for these expenses.

NOTE: Marin County has not paid its Associate member invoice for \$5,000 last year.

Fiscal Year Ending June 30, 2019

The following items are attached for the Board's information for Fiscal Year ending June 30, 2020:

- f. Consultant Cost Tracking for FY19/20 through September 30, 2019

ITEM NO. 9. PHASE 1: STATUS OF RECONCILIATION AND CLOSEOUT ACTIVITIES

Action Requested

None at this time

Summary

Reconciliation and closeout is ongoing as we work to complete the sole remaining Phase 1 project.

On May 3, 2019, staff participated in a tour of several facilities with our new representative at Reclamation. A discussion about closeout activities occurred and follow-up has been ongoing on next steps. Sonoma Water has been compiling documentation (with assistance from B&C) and requests for additional information from project participants may occur in the coming months. A closeout report will be produced once the final project is complete.

LGVSD Project update:

The LGVSD Secondary Treatment and Recycled Water Treatment Facility Upgrade Project is the only active project. Critical electrical components of the project include relocation of power supply service to the existing LGVSD Wastewater Treatment Plant requiring new overhead power transmission lines, transformers and motor control centers, the majority of which is proprietary work to be performed by Pacific Gas and Electric Company. The 2017 fires and resulting bankruptcy case have delayed work.

Sonoma Water is working with LGVSD to confirm schedules and determine whether an additional time extension will need to be requested from USBR. The current completion deadline is September 30, 2020.

Recommendation

None at this time.

ITEM NO. 10. STATUS OF PHASE 2 EIR/EIS

Action Requested

None at this time.

Summary

Status of the NEPA Document and Financial Capability Report were summarized in April 2019 and there has been no change in the situation:

Phase 2 Study Status

- When Reclamation issues a finding of feasibility, federal funds can be expended on a project
- Feasibility Study was completed in 2017
- Financial Capability Analysis was submitted to USBR May 2019
- Title XVI grant funds can be applied for and secured at this stage of the process
- The last Phase 2 Study task is issuance of the Record of Decision (ROD) which completes the environmental review/NEPA process
- If awarded, Title XVI grant funds cannot be expended until issuance of the ROD

Phase 2: NEPA Waiver Summary

- When the NEPA process was nearing completion, new guidance was issued requiring a time/page limit waiver for large, programmatic documents
- A waiver request was submitted (Sept 2018) but has been placed on indefinite hold until there is a federal discretionary action obligating Reclamation to process the waiver
- Discretionary action is attained either through award of federal grant funds or congressional action via legislation
- Reclamation will process the waiver once directed however, the process will still take an additional 3-6 months before a ROD is issued

Summary

- Without some action to cause Reclamation to act the NEPA document nor the financial Capability Report will be reviewed by Reclamation
- Funds remain for a third WaterSMART grant application. If the grant is accepted, then Reclamation will have the ability to complete review of the NEPA document and the Financial Capability Report

Recommendation

ITEM NO. 11 IRWMP GRANT FOR PHASE 2 FUNDING

Action Requested

None at this time.

Summary

NBWRA requested IRWMP funding for a subset of Phase 2 projects under the San Francisco Bay Area region's 2019 Proposition 1 Grant Solicitation in June 2019.

The subprojects included in the proposal included:

1. City of Petaluma Increase Ellis Creek Water Recycling Facility (ECWRF) Capacity Project which will include facility upgrades at the existing ECWRF to increase tertiary filtration and disinfection capacity by 2.12 million gallons per day (2,375 AFY), providing a yield of 712 AFY.
2. City of American Canyon (AC) Phase 1 Recycled Water Distribution System Expansion project which will construct several pipeline extensions to their existing system to deliver recycled water to landscaping and industrial users on potable water and convert them to recycled water for non-potable uses. The proposed project would construct 3,070 LF of 6-inch-diameter pipelines that lie within existing built roadways to provide 48 AFY of additional yield.

The proposal was reviewed by the Bay Area IRWMP Project Screening Committee (PSC) and ranked 4th out of 27 projects. The PSC recommended awarding \$ 4,061,270 to the two subprojects. Based on the PSC recommendation, NBWRA presented the proposal before a committee of DWR representatives at a workshop in August 2019. DWR has provided feedback and NBWRA is currently finalizing the project application that is due November 01, 2019.

Sonoma Water, acting on behalf of NBWRA would be the local project sponsor and would coordinate implementation and reporting on the grant award with City of Petaluma and City of American Canyon.

All local project sponsors are required to adopt the latest revision of the BAIRWMP plan. Sonoma Water as the fiscal sponsor will adopt the plan revisions, when finalized.

Since NBWRA is a sponsor of the two approved subprojects, the NBWRA Board should also approve the BAIRWMP at its next meeting, scheduled for April 27, 2020. Staff will include that as an action item for that meeting.

FEDERAL ADVOCACY**

Action Requested

None at this time.

Summary

Sonoma Water's federal affairs advocate, Natural Resource Results, is continuing to facilitate legislative outreach efforts for NBWRA. This includes coordinating outreach on Senator Feinstein's letter to the Bureau of Reclamation regarding authorization for Phase 2.

In addition, the proposed FY2019/20 Budget includes placeholder funds for Program Development, State Advocacy, and Federal Advocacy in the amounts of \$15,0000, \$17,000, and \$17,000, respectively. This will be considered separately by the Board in Agenda Item No. 14, Approval of FY2019/20 Budget.

ITEM NO. 13 DROUGHT CONTINGENCY PLAN**Action Requested**

None at this time.

Summary

The North Bay Drought Contingency Plan (DCP) grant award was issued in September 2017 to Sonoma Water (acting on behalf of NBWRA) to develop a drought contingency plan for the North Bay region, which covers 350 square miles of Marin, Sonoma, and Napa Counties.

In early 2018, the Sonoma Water completed initiation of the DCP by establishing the Task Force, developing a detailed Work Plan, and the supporting Communication and Outreach Plan. During the outreach used to complete these activities, the following stakeholder decisions were made by the Task Force:

1. There are seven Napa County agencies ready to proceed with the North Bay DCP. The number of Napa County participants has increased, and the proposed study area has expanded to include the entire Napa Valley.
2. Marin and Sonoma County stakeholders are currently engaged in an Infrastructure Resiliency Study, therefore, their preference is to initiate a separate DCP in the future to best integrate this new information.

Based on the findings of the Task Force, Sonoma Water officially inquired whether Reclamation would be amenable to modifying the DCP study area to encompass only the identified area in Napa Valley and transfer the fiscal agent responsibility to City of Napa acting on behalf of the seven identified agencies in Napa County. Reclamation was receptive to the modification and negotiations ensued to make the identified modifications.

On August 6, 2019, grant award R17AC00113 for the North Bay Drought Contingency Plan was officially terminated. All responsibilities and funding originally associated with the award have been reassigned to City of Napa to complete the Napa Valley Drought Contingency Plan through Reclamation Agreement # R19AC00058.

ITEM NO. 14 APPROVAL OF FY2019/20 BUDGET**Action Requested**

Approve the FY2019/20 Budget.

Summary

As has been reported previously, there are adequate funds in the existing agreements for Program Management and Engineering, Environment, and Outreach agreements to carry through FY2019/20.

Also, as was noted in the Report from the Chair, Sonoma Water and the review subcommittee opted to not enter into a new agreement for Program Development, State Advocacy, and Federal Advocacy.

For FY2019/20, Sonoma Water is recommending the following costs:

Phase 1 – No costs. During closeout a true up will occur for all Phase 1 members. There are ongoing costs for Phase 1 agencies until all projects are completed. Fortunately, the costs are only for Joint Use and the costs are minimal as much is being covered by carry over funds and could also be covered by associate dues and/or interest earned.

Phase 2 – \$45,000. Expect limited costs under this task until triggering event kicks us into response mode and then funds could go quickly.

Joint Use – \$92,500. There was a negative balance at end of last fiscal year of approximately \$8,500. The Budget request will of \$92,500. Includes \$8,500 to cover the FY2018/19 negative balance and \$84,000 for FY2019/20. This number is conservative as there may be additional efforts required due to changes in the Program Development and advocacy program.

Over the years a significant balance of accumulated interest has resulted. For FY2019/20 it is proposed to offset \$60,000 of Joint Use administrative costs with accumulated interest.

In addition, Sonoma Water will need to provide services related to program development, state and federal advocacy. No funds for this have been included in prior budgets. Following the Program Development Subcommittee meeting, it was recommended that a balance be built up to fund these services if the need arises and NBWRA needs to react quickly.

Therefore, it is proposed the following be included in the FY2019/20 Budget with the understanding that the funds could be used for any of the three tasks:

Program Development	\$15,000
Federal Advocacy	\$17,500
State Advocacy	\$17,500
Total	\$50,000

Attached is a detailed FY2019/20 Budget as described above. The detailed budget also includes the associated costs for all Phase 1 and Phase 2 agencies. The proposed costs and revenue from the member agencies are also summarized below.

ITEM NO. 15 FUTURE OF NBWRA**Action Requested**

Discuss issues related to the future of NBWRA, provide direction to Sonoma Water and consultants such that appropriate action items can be presented to the Board for consideration at a future meeting.

Summary

Currently, the NBWRA Board is scheduled to meet two times per year. The next scheduled Board meeting is April 27, 2020. The Administrative Agency would like to know:

1. Should the TAC be resurrected and meet in between Board meetings? If yes, how often?
What should their focus be: budget(s) review, project oversight, and other issues?
2. Are there new opportunities based on legislation; regional issues; worth pursuing?
 - a. Is the interest from the member agencies in pursuing some/all of the actions identified?
 - b. Cost considerations for pursuing these actions, should be discussed?
3. What does the future hold for NBWRA?
4. Are there other options that should be discussed and considered?

Recommendation

Provide direction to Agency and consulting team staff such that appropriate action items can be brought before the Board for consideration at a future meeting.
